## **REASONS FOR ALLOWANCE**

### ***Allowable Subject Matter***

1. Claims 1-3 and 5-11 allowed over the prior art of record.
2. The following is an examiner's statement of reasons for allowance: The Applicants arguments filed on 4/22/2005 are persuasive. The prior art of record fails to teach or suggest the Applicants claimed invention. In particular the feature comprising providing a PDP device with a single inductor wherein the specified oscillation is generated from a combination of the single inductor and equivalent capacitance is not taught or suggested. Kanatani et al. fails to teach of said specified oscillation with a single inductor, given the require two inductors to make the voltage oscillation. Therefore said feature in combination with the other limitations of claims 1 and 10 are allowable over the prior art of record.
3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
